*Opuntia Strombiformis* — Cylindrical, No. Spines.  
**TOTUM POLE—L. SCHOTTI MONSTROSE**  
Cow's Tongue — *Opuntia linguiformis*.  
Prickly Pear Cactus — *Opuntia lindheimerii*.

### **CULTURAL GUIDE**

Cacti and succulents are natives of arid regions, so try to maintain desert conditions; dry atmosphere, PLENTY OF LIGHT and not much water. They can go long periods without water.

*Watering Instructions:* Set pot in saucer of water for  $\frac{1}{2}$  minute, or just long enough for water to rise to top of pot. Do this once every ten days. Water very sparingly in winter.

*REPOTTING:* Remove all soil from roots, prune roots to  $\frac{1}{2}$  their previous length. Plant in a mixture of equal parts of good garden loam and COARSE sand. Very little fertilizer, if any, is required. Rank growth is not desirable.
